HEADQUARTERS BOMB GROUP  
Office of the Operations Officer  
APO 140, U.S. Army

Date 9 December 1944

SUBJECT: Interrogation of Group Box Leaders on PFF Lead.

TO : CO, 1st. Pathfinder Squadron Prov., APO 140, U.S. Army.

DATE OF MISSION 8 Dec 44 PFF PILOT LT. JOHNSON

GROUP BOX LEADER LT. COL. W.S. WALK

1. Was PFF lead entirely satisfactory? If not, why not?

Lead was entirely satisfactory with one exception.  
PFF aircraft left bomb bay doors open on turn off target  
and until bombing was completed. The formation tended  
to overcast the leader.

2. Opinion of evasive action taken.

Satisfactory

3. Comment on PFF Navigation.

Very good

4. Suggestions.

Lead PFF aircraft close bomb bay doors before  
commencing turn off target. In so doing, we will pick  
up speed on the turn off, and the flight will not have  
a tendency to overcast the leader. Today, our flights  
mentioned this difficulty.

(OVER)

second box based on first box, both boxes being led by a single PFF aircraft.

3. 10 A-20E  
22 A-20E

4. 2 A-20E

5. 1 A-20E  
2 A-20E

6. 41-3934 Lt. H. Luban returned early - shortage in cannon plug causing fire in cockpit.

41-3934 Lt. L. A. Fisher returned early - cable connecting camera to ship circuit shorted out turning installation off wires and causing smoke in radio compartment.

41-108 Lt. G. S. Stanley 4 bombs returned - pilot had rack collector a switch in main position.

41-3939 Lt. L. J. Fruchs Flight leader (Lt. Stanley) did not drop.

41-3938 Lt. W. C. Sawyer bombs released prematurely when doors were opened. Pilot turned on bomb master switch and apparently had thumb on release button. System checked and found to function properly.

7. Same as paragraph 6 in addition to the following:

41-3939 Capt. W. J. Tull failed to release 7 bombs which became detached from bomb rail hook during violent section of aircraft. Three came out of overhead in violent manner and 3 bomb shackles were out of bomb rack hooks on aft end.

Report of Rocket Mission

(Continued)

11-3-54 Station 6 failed to release. System checked and found to function properly. Possibility of moisture in A-1 release receptacle.

11-3-54 Station 3A and 4 A failed to release. System checked and found to function properly. Possibility of moisture in A-1 release receptacle.

J. [unclear]

For the Commanding Officer:

ORRIS [unclear],  
Captain, Air Corps,  
Majorant.
